## Scoop Is a Regular One-Cylinder Gasoline Engine

## KERMAN

Is neither a gamble nor an experiment, nor anything else that may or may not pan out.

KERMAN is a certainty, a country already producing abundantly, a community long since through the experimental stage, providing absolute safety for homeseeker and investor, supporting now hundreds of prosperous farmers and their families.

KERMAN has a productive soil, a producing climate, and plenty of cheap water for irrigation—a combination that cannot fail to produce wealth for the farmer, if he does his share—AND IT DOES.

KERMAN produced the first full carload of peaches shipped from the San Joaquin valley in 1911.

KERMAN orchards and vineyards the past season produced hundreds of tons of raisins, dried peaches and apricots, besides enormous quantities of green fruit and grapes shipped for table and canning purposes.

BIG SHOWING FOUND IN  
MANHATTAN LEASE

## Special to the Bonanza

MANHATTAN, August 23.—One of the big showings of the camp at this time is the lease of Phillips and Tidwell on the Indian Camp mining property. At a depth of seventy-five feet the ledge is twelve feet wide. Pannings from the ore shoot are variable, as in all shoots but it is no trick to get one or many of them that indicate values of \$75 a ton.

At the surface the ledge is quite narrow but as it descends into the earth it takes somewhat the form of an inverted "V". Rapidly as it has widened its values have kept up. In this case, however, the same as all other known ones in Manhattan, the ore shoot rakes to the south. The shoot has been cut through in the shaft and the drift is being driven southerly to tap it at the 75-foot level.

There are very few shafts in Manhattan from which 108 tons of ore have been stoped above the seventy-five foot depth, but this is what has been done by Phillips and Tidwell. This ore was milled with excellent results several weeks ago.

A great deal of time was consumed by these leasers in searching for and finding a desirable spot to exert their energies on a lease. Mr. Phillips spent over a year searching for a shoot and locating the proper place for a lease in the vicinity of the Indian Camp. Mining men generally conceded that he finally secured one of the best obtainable in the camp and among them the remark of its resemblance to the Big Four, especially in point of its growing size is very frequent.

The old Indian Camp workings, only a few feet to the southeast, show a line contact. There is another a short distance to the west.

## INDIAN DIVORCE PLAN

## BEATS THE RENO WAY

The Piute Indians of the Walker Lake reservation have a way of their own of getting a divorce that beats the Reno way to a frazzle. When a squaw gets tired of her husband, or vice versa, the one asking for a separation gives the other \$37 to get rid of him or her, as the case may be. The offering of the money is all that is necessary to show a dissatisfaction of the other and that a separation is wanted, so they take it or leave it, but generally they take it. No money in sight, no divorce, is invariably the rule among these tribes people. It is said that the plan works to perfection and that many an Indian couple is separated in this way.

So it can be plainly seen that the Indian way is even more civilized than the Reno way. There are no long court arguments, no attorney fees, no attorney, no pushing. Just put up \$37 and be on your way. Just say that the Indian "no more."

PLANS ATTRACT  
HOMESEEKERS TO  
STATE NEVADA

## JOHN C. MARTIN WILL JOIN

SOUTHERN PACIFIC LAND  
SALES OFFICE FORCE

John C. Martin left for the north this morning. At Reno he will join Mr. C. E. Wantland, general sales agent of the Southern Pacific land department to arrange plans for an aggressive campaign to capture the thousands of homeseekers who will pass through the state this fall. This is the first time the Southern Pacific or any other road has granted homeseekers' rates to Nevada and it is proposed to use every effort to induce a thousand families to take up their homes in the northern tier of counties. Reports of agents in the extreme east, middle west and as far north as Alberta state the movement this year will be greater than ever before and foreshadows the selection of Nevada by many homeseekers in search of cheap and fertile lands.

As the first step towards acquainting the strangers with the resources of Nevada Mr. Martin has been engaged in compiling a new handbook of Nevada which will contain the latest up-to-date information collected from reports of the census bureau and Nevada state departments.

## TONOPAH MANHATTAN AUTO CO

Our company has three new passenger cars, built for the comfort of passengers. We aim to please. Courteous and careful drivers. Our cars meet all trains and leave immediately after arrival of trains. No waiting for mails.
